

# MY PERCUSSIVE LIPS

R&D Project

## Stammering Participants Needed:

An artistic project, supported by public funding from Arts Council England, is taking place over March to explore new ideas such as the stammered narrative and the personification of a stammer. Working with a combined artistic team, the project needs stammering participants around Manchester to explore and create alongside professional artists.

These workshops will be facilitated by Jonathan who has a background in stammering and will involve creative play utilising music, dance, and storytelling.

You do not have to be a creative! We want stammerers from all backgrounds!

This will be an unpaid opportunity with travel expenses covered.
